Another year, more great new resources.

We spend a lot of time searching out and talking to people about new resources. What we aim to find for you are not just new and innovative practical solutions to your problems but resources that really do work.

Cambridge House is run by special educational needs experts. The company is family owned and run by Bruce and Nicky Williams. Nicky is a trained dyslexia and dyscalculia specialist who also continues to tutor at a number of schools in Kent.

We believe this gives us a special edge in selecting practical resources that work; many of which Nicky uses or has used in her work or have been recommended by colleagues.

In that vein, if you have any new or favourite resources that you think should be brought to the attention of a wider audience do tell us about them. We are always keen to spread the word.

newideas@cambridgehouseeducation.com

One of the shortcomings of a catalogue is that space is always at a premium. We have tried to include much of what we consider to be the best of our range. There is more and you can find it all on the website. Do please look there if you cannot immediately see something here in the catalogue and if you can’t find it there get in touch with us and we will find it!

Here is a selection of particularly popular resources. Dare we call them essentials ...

It all is!
Better but not bigger! In trying to stay true to our belief that our customers want us to supply top quality, practical resources that work, we have resisted the temptation to make our catalogue bigger by offering more.

There are many excellent resources out there but sadly there are also many that are not so excellent. With money ever tighter we continue to select the resources that we think will make a difference and help you in your everyday interactions and interventions with the young, and sometimes not so young people with SEND.

We also apply this philosophy to our newly redesigned website but without the space constraints of a catalogue we do have many more resources available there. Do please take a look from time to time because as and when new products are launched we will have them there first.

We appreciate any and all feedback we receive so please do let us know about the good and the bad. We would love to hear from you - feedback@cambridgehouseeducation.com

Bruce & Nicky Williams

Our website has been redesigned - it is now much more SEN compliant as well as being easier to navigate and search. We like the design as well!

Do please take a look. www.cambridgehouseeducation.com
Phonics for Pupils with Special Educational Needs Books 1–7

A new, complete, structured, multisensory programme for teaching reading and spelling. Refreshingly simple approach to the teaching of phonics, alongside activities to develop auditory and visual perceptual skills. Specifically designed to meet the needs of pupils of any age with special educational needs, the books break down phonics into manageable core elements and provide a huge wealth of resources to support teachers in teaching reading and spelling.

Multibuy - The set of 7 Books | PPSENMB | £283.44 |

Sound Activities

This well known, enjoyable and stimulating photocopyable series provides a fun way to give essential reinforcement to learning phonics sounds. Based on the popular Spelling Made Easy series it follows the same pattern of building language skills through a familiar pattern of sounds. Structured exercises provoke logical thinking and encourage children to develop their phonics skills. Reinforcement for children who have difficulty in retaining sounds and have poor short-term memory.

There are 4 levels and a book of higher level Extension exercises.

Trugs

A high-quality systematic synthetic phonics reading resource for students of all ages who learn through playing decodable card games. Each box contains 5 stages each one building on the one before. A wonderful resource for schools, teachers, tutors and parents.

We recommend the Home sets for tutors and those working one to one or very small groups with pupils.

School Boxes contain - 504 cards making 20 Card Games, 1 Instruction Booklet, 1 Story Booklet, 1 Pupil Record for assessing pupil progress.

Home Boxes contain - 360 cards making 15 Card Games, 1 Instruction Booklet.

Check Cards

These packs of cards are designed to ‘Check’ a student’s decoding skills at the end of each Trugs Box. Can be used alongside Trugs or as a standalone resource to test and reinforce phonics skills.

The game is simple to play and similar to beggar-my-neighbour.

Stage 0 - To practice, reinforce and consolidate all the letter sounds of the alphabet.

Stage 1 - To check mastery of the five phonic stages within Trugs Box 1.

Stage 2 - To check mastery of the five phonic stages within Trugs Box 2.

Stage 3 - To check mastery of the five phonic stages within Trugs Box 3 and to demonstrate high level reading skills.

Lifeboat Read and Spell Scheme

A series of ten books, comprising in total 100 photocopyable lessons, each of which follows a consistent lesson format. Together the series makes up a truly inclusive, highly-structured, easy-to-manage, multi-sensory teaching resource for a wide range of literacy teaching. Its ease of use also means that the lessons can be delivered and supported by teachers, classroom assistants and parents.

The Complete Phonics Handbook

Excellent teacher reference book containing phonics word lists and much, much more.

- ideal for use to support all spelling programmes.
- assists in improving pupils’ understanding of phonics and spelling.
- separate colour-coded sections written for pupils of 5–7, 7–10 and 10+ reading ages.
- comprehensive teachers notes and activity suggestions.
- grapho-phonics word lists organised into ‘sound’ families.
- section on roots and compound words.
- glossary of terms included.

Word Maps

Photocopiable resource which quickly enables teachers to access words to fit the rime or spelling pattern being taught. Word lists of increasing difficulty for differentiation in the classroom, are accompanied by sentences. These sentences can be used for dictation or precision reading.

Each rime is also presented as a word map, that is, in graphical ‘mind map-type’ format. It is particularly useful for learners who have visual strength but with an inherent phonological weakness. It is suitable for all ages.

**Simple Syllable Analysis**

This book aims to teach pupils to use their eyes to seek out regular patterns in words. A structured and cumulative programme of work to help pupils practise six basic syllable patterns. Presented in a photocopiable worksheet format with speed reading exercises and dictations.

**Learning Can Be Fun**

This successful series provides structured learning in key literacy skills. It includes a series of ideas for games that boost phonological awareness. The games use the children’s strengths and at the same time exercise their weaker sensory areas with valuable reinforcement.

**Vowel Sound Directory**

Learn and revise the spelling patterns of 19 different vowel sounds with this easy to use desktop aid. Separated and colour-coded into 3 categories: short vowel, long vowel and r-controlled vowel sounds so that during writing pupils can access the vowel sound in a word and the different ways of spelling that sound. The unique tabbed design means that pupils will be able to find words and sounds quickly. Updated sounds and photo images to illustrate the sounds.

**A Minute a Day Phonics**

A perennial favourite and great lesson warm-up/refresher. Contains 31 A4 photocopiable games, 28 of which focus upon a specific phonic skill. Within the book are three content-free games, which may be used for additional phonics, or for sight vocabulary.

**A Minute a Day High Frequency Words**

A new title in the popular Minute a Day series, an excellent aid to help learners become fluent readers. 40 photocopiable precision teaching games. The 220 High Frequency (HF) words featured also include several groups of words based around specific themes.

**Megawords**

A popular series from the US. It addresses the reading, spelling, and contextual use of multisyllabic words through multisensory instruction and a systematic progression of skills. The series approach enables students to master the multisyllabic words they encounter from the Year 5 reading level and beyond. Within each book, words are organised according to word structure and spelling pattern. A consistent, six-step lesson is used to analyse and understand list words. Students first work with word parts and syllables, then combine syllables into whole words. Exercises increase reading and spelling proficiency by using words in context and in short, content-area passages that build comprehension and fluency. Also helpful for older learners.

**Toe By Toe**

A highly structured multi-sensory one-to-one reading manual which can be used by either teachers, learning support staff or parents to establish reading skills.

**Word Wasp**

A comprehensive, structured and diagnostic manual for the teaching of reading and spelling for children and adults.

**Hornet Literacy Primer**

Aimed at pupils 5 years and up. Delivers the initial stages of Word Wasp at a slower and more accessible pace for those with severe reading and spelling difficulties.
Phonic Skills Book 1
This title from Kickstart is designed for pupils with specific difficulties in the acquisition of phonic skills. A wide variety of activities covering the ‘silent e’ rule with vowels a, e, i, o, u, Consonant Digraphs, and b-d confusion. Suitable for Key Stage 2 and above. Contains 70 pages. Photocopiable.

The Vowel Sound Book
Provides a range of activities for teaching the 5 short vowel sounds. The worksheets are designed to teach and consolidate the grapheme – phoneme relationship of the five vowel sounds and includes work on a – o and e – i discrimination. 77 pages. Photocopiable.

The Consonant Digraph Book
A range of activities to teach the consonant digraphs ch, ph, th, wh. Worksheets include wordsearches, crosswords, cutting and sticking, cloze procedure sentences, and matching exercises. 68 pages. Photocopiable.

Homophones and Tricky Words
Three very helpful books with various activities to help teaching about 180 homophones and easily confused words – provides strategies for remembering spellings, activities to practise and consolidate using cloze exercises, wordsearches, Look, Say, Write, check methods and proof reading. Includes dictation sentences for identifying difficulties, pupil response sheets and checklists. Photocopiable.

Phonic Tracking Book A & Book 1
These excellent Kickstart photocopiable books provide exercises for practice and consolidation in the use of letter sounds and activities for learning the alphabet. The tracking exercises help increase the speed letters are recognised and used in word attack strategy. Book 1 has further tracking exercises which will help to increase the speed with which phonemes are recognised and used. Target words are embedded with similar words in order to improve discrimination.

The Magic e Book
Dedicated to the teaching of the “magic e” rule with vowels a, e, i, o, u. Equally well suited to pupils who are ready to learn this phonic skill and pupils with Specific or General Learning Difficulties. 68 pages. Photocopiable.

Phonic Blending Books
The First Phonic Blending Book is a comprehensive resource for developing c-v-c word blending skills with short vowel sounds a e i o u. A variety of activities move from c-v blending to v-c blending then c-v-c blending. Includes rhyming activities and a full set of assessment/record sheets. 83 pages. Photocopiable.

The Second Phonic Blending Book follows to cover c-c-v-c blending, c-v-c blending, then c-c-v-c-c blending, with intermediate steps to teach initial and final consonant blends. 63 pages. Photocopiable.

The Third Phonic Blending Book covers initial consonant clusters, gu with silent u, dge, nce, nch, tch endings, and words with 2, 3, and 4 syllables. Includes teacher’s notes and checklist for each phoneme. 64 pages. Photocopiable.

Phonics – Kickstart Publications
Kickstart publish a range of excellent, very popular, tried and tested photocopiable books targeted specifically at SEN and basic skills with a focus on literacy, phonics and comprehension. You will find their books in most sections of this catalogue. Here are their phonics titles.

First 300 High Frequency Words Flash Cards
All of the first 300 high frequency words taught during Letters and Sounds are provided in these boxed sets. Cards are presented with the word and are organised and numbered by frequency from 1-300. The sets have tabbed sections of ten words.

CODE SKLT37  PRICE 22.99*

Letters and Sounds Flash Cards
All the words used throughout Letters and Sounds (including the first 100 high frequency words) are contained in these simple yet highly effective boxed sets of flash cards. Each set comes in a sturdy storage box with tabbed dividers. Cards measure 135 x 60mm. Cards are double-sided, showing the word on one side and the word with sound ‘buttons’ on the other, representing individual phonemes.

Smart Chute & Smart Chute Cards
Smart Chute and Chute Cards are one of our favourite and very best selling SEN resources. You will find the cards popping up throughout this catalogue. The high quality card flipper is a fun and exciting way to develop key literacy, numeracy and memory skills. The student studies the front of the Chute Card, posts it in to the top slot while saying the answer and the correct answer then miraculously appears at the bottom.

The cards, which come in boxes of at least 50 cards, can also be used without the flipper (and without the seeming magic!).

Smart Chute Letters & Sounds Kit
A Smart Chute and 14 packs of self-correcting cards that give vital practice of the teaching progression of Letters and Sounds Phases 2-5. Each colour coded phase contains packs for introducing, learning and securing phoneme knowledge. A separate pack of tricky words for spelling is also provided for phase 3 onwards.

Chute Cards Phonics Set
9 packs of Chute cards – Initial Sounds, Medial Vowel Sounds, Final Sounds, Vowel Phonemes, Blend Beginnings, Blend Endings, Rimes, Syllables Level 1 and Syllables Level 2. Does not include Smart Chute.

Letters and Sounds Synthetic Phonics Board Games
Phase 2 - Sound-out, blend, segment and decode phonemes within real, non, tricky and high-frequency words. Set of 4 games provides targeted revision of reading and spelling words using a synthetic phonics approach. Suitable for foundation and upwards (with an adult to read the rules), these games are also highly effective and engaging for older pupils who may have gaps in their phonic knowledge.

Phase 3 - 5 games covering Phase 3 consonants and consonant and vowel digraphs.

Phase 4 - 6 games to further pupils knowledge of adjacent consonants, polysyllabic and high-frequency words for both reading and spelling.

Phase 5 - Motivating Phase 5 board games. Turn detective by correctly identifying the sound of a given grapheme or choose a square and blend, segment and decode Phase 5 phonemes and consonant and vowel alternative spellings within practice and high-frequency words.

Prefixes and Suffixes Wordbuilding
50 colour coded magnetic prefixes, suffixes, root words and blank strips to make up your own root words. Explanatory cards provided which outline exactly what prefixes and suffixes do.

CVC Bingo Games
Secure CVC, CCVC, CVCC and CVVC spelling pattern knowledge through the use of these brilliant word building bingo games. Boards show 3 or 4 letter words containing either a short vowel sound and adjacent consonants or a long vowel sound/split vowel digraph. Players must listen or look carefully as letter sound cards are either held and/or sounded before being placed in to the correct position on the board.

Chunks Wordbuilding Game
Build words to win. Covers the most commonly found onsets and rimes. By discovering the key components that make up words, it extends oral, written and visual language skills. Contains 70 yellow onset tiles and 70 green rime tiles.

Chunk Stacker Game
Chunk Stacker is an up-words version of Chunks. Each player builds a tower of words by adding blue onsets or pink rimes. Designed to develop knowledge of word and spelling patterns, it also encourages strategic and lateral thinking.
**The Spelling Rulebook**
This best selling favourite explains all the linguistic rules and phonic principles of English spelling. It is an indispensable reference book for professionals and non-professionals alike. It is A5 and has a clear, accessible layout.

**Spelling Rules, Riddles and Remedies**
For anyone supporting learners in Key Stage 2 upwards who are struggling to understand the world of English spellings. Clearly presented and highly illustrated, this book encourages creativity and shows teachers how to adapt and adopt a variety of learning strategies to suit different needs.

**200 Tricky Spellings in Cartoons**
For ages 12 to adult this uses visual mnemonics and situational humour to 200 tricky and confusing words. Helpfully this also includes formal and academic as well as everyday words. It is very popular with visual learners and those with dyslexia.

**Spelling Essentials**
This is a comprehensive and invaluable reference guide packed with a wealth of useful information. It covers rules, vowels, consonants, plurals, prefixes, suffixes, apostrophes, acronyms, abbreviations, root words and much more.

**SpLD Spelling Rules**
Book 1 - Unlocks the complexities of spelling patterns and provides easy to remember rules. Rules are introduced then consolidated through a wide range of activities. Covers 12 spelling rules which commonly cause difficulties. 70 pages. Photocopiable.

**SpLD Spelling Rules**
Book 2 - 71 pages covering a further 20 spelling patterns. Photocopiable.

**Homophones and Tricky Words**
Three very helpful books with various activities to help teaching about 180 homophones and easily confused words - provides strategies for remembering spellings, activities to practise and consolidate using cloze exercises, wordsearches, Look, Say, Write, check methods and proof reading. Includes dictation sentences for identifying difficulties, pupil response sheets and checklists. Photocopiable.

**Spelling Rules Directory**
This colourful, illustrated spelling aid will teach children the tips and tricks that make spelling easier. Divided in to three sections of positioning, suffixes and guidelines, this great desktop tool will really help pupils grasp our eccentric English language.

**Box Dictations**
Transform phonic dictation in to a fun, accessible challenge. Children enjoy writing in boxes and the individual letter boxes give valuable clues as to the shape of the word and the number of letters. Each book consists of a series of carefully structured dictation sentences for reinforcing specific phonemes and spelling rules and a corresponding set of boxes pages for the children to write in. Full explanatory introduction and the complete set comes with a full printout CD of all the exercises. Photocopiable.

**School Spelling Dictionary**
Highly acclaimed and strong selling dictionary. Allows students to use phonic attack to find both regular and irregular spellings. Students can look up a word as it sounds - if they are correct, they will find it in black, if they are wrong they will find it in red, with the correct spelling in black alongside. Designed for use from Key Stages 1 to 3.
Ace Spelling Dictionary

The ACE Spelling Dictionary takes away the frustration of hunting through a conventional dictionary and actually improves users' spellings through increasing their understanding of common spelling patterns and unusual features. Users need only think about how a word sounds to find out how to spell it.

By simply identifying the first vowel sound, the speller is directed to the page where the problem word is found.

Support pupils' spelling with these ACE Spelling Dictionary cards.

Jumpstart! - Grammar

A collection of simple to use, multi-sensory games and activities that will jumpstart understanding of grammar in action. Fun games focus on helping children hear the difference various types of grammar can make followed by activities to help them understand what different effects you can create with grammar.

Grammar & Sentences Directory

This tabbed flip card directory provides explanation and examples of parts of speech, punctuation, types of sentences, sentence features and structures.

The Grammar Dictionary

Comprehensive, authoritative handbook for secondary school pupils, university students, teachers and parents. 250 grammar entries clearly explained with illustrative examples from real-life sources.

Grammar Minutes

An exciting six-book series that will help pupils apply and extend their grammar skills, step-by-step, over one hundred 'minutes'. 100 test pages, each with 10 problems, grammar worksheets cover all elements of grammar, including punctuation, parts of speech, sentence structure, compound words and contractions, offers practice in speed of recall of knowledge and understanding of the features of the English language. Ideal as a starter activity in a timed speed-test format to begin each English lesson, or alternatively can be used as revision or as homework activities.

Smart Chute Grammar Cards

Familiarise pupils with basic grammar with this set of Chute Cards. Smart English pack gives explanations of different parts of speech with helpful examples. Follow up with practice of Grammar Sentences, Contractions, and the use of apostrophes, tenses and onomatopoeias.
Spelling Board Games
Level 1 8 board games. Reinforce letter-sound relationships and word skills in a fun, interactive way. They cover the alphabet, digraphs, medial vowels, rimes, blends, split-digraphs, vowel phonemes and the first 45 high frequency words.

Level 2 Set of 6 board games teaches various spelling patterns including anagrams, rimes, vowel sounds, syllables, silent letters and plurals.

Level 3 Higher level set of 6 board games teaches more advanced spelling patterns including homonyms, antonyms & synonyms, prefixes, roots, suffixes, and similes, idioms & metaphors.

Level 4 6 board games. Exciting higher-level spelling board games to further your knowledge of: prefix and suffix meaning and usage; hard-to-spell homophones; irregular past tense verbs; and spelling syllables that are to hear.

Sentence Scramblers
Scramble together Sentence Starters, Parts of Speech and Punctuation to form wacky and creative sentences! Spin the spinner and turn over the same coloured word tile that the arrow points to. Create longer sentences using adverbs, adjectives and connectives to collect the most pieces and win the game. Colour-coded word tiles make sentence structuring visual and easier to understand. Promotes writing fluency, social skills and the use of more interesting and adventurous vocabulary.

6 Grammar & Sentences Board Games
These games focus on non-threatening practice of essential grammar application within sentences. Set includes answer cards and all game instructions are printed on the A3 boards.

Be the Teacher!
This photocopiable workbook cleverly casts the pupil as teacher. Pupils are invited to ‘mark’ a set of inaccurate pieces of work from an imaginary group of children, so as to consolidate their own knowledge by recognising mistakes. Book 1 deals with basic mistakes, using vowel and consonant combinations from KS1. Book 2 covers areas laid down in KS 2.

Put it Right Proofreading Activities
Sixty photocopiable proof reading passages with diagnostic tests for teachers and parents.

Proofreading and Editing Skills
A contemporary, photocopiable four-book series to provide pupils with experience in proofreading and editing a variety of written texts. KS1.

Features:
- proofreading and editing exercises each with a punctuation, grammar, spelling and vocabulary focus.
- wide variety of fiction and non-fiction writing genres used, including legends, traditional poems, instructions, persuasive writing and reports.
- detailed teachers notes, answers and curriculum links included.

Proofreading and Editing Skills

Be the Teacher!

Proofreading
Tracking

Sentence Tracking HF Words
Our most popular tracking title. In addition to the benefits derived from tracking tasks users will also become familiar with the 500 most frequently used words. Photocopiable.

Word Tracking HF Words
Uses the same word list as Sentence Tracking. Photocopiable.

Letter Tracking
Designed to improve visual discrimination helping with problems such as reversals, skips, left to right directionality, omissions, substitutions, and excursions over the page with the eyes. Lessons progress from 24 to 19 point font size. Photocopiable.

Symbol / Letter Tracking
This enables tracking of symbols, numbers, lower case and upper case letters in groups of six through 20. Appropriate for non-readers and beginning readers. Type size ranges from 24 to 12 point. Photocopiable.

Phonic Tracking Books
These excellent Kickstart photocopiable books provide exercises for practice and consolidation in the use of letter sounds and activities for learning the alphabet.

Book A - The tracking exercises help increase the speed letters are recognised and used in word attack strategy.

Book 1 - Has further tracking exercises which will help to increase the speed with which phonemes are recognised and used. Target words are embedded with similar words in order to improve discrimination.

Sentence Tracking
Another series of 3 excellent photocopiable books provides tracking exercises using most commonly used words. They will help to develop Left-Right orientation and scanning skills, improve word recognition and increase reading speed.

Available in Yellow / Celery / Grass / Jade / Aqua / Sky / Purple / Magenta / Pink / Orange and Grey. Look on the website for colour samples and to order.

We supply and stock, from a number of different publishers, a wide range of dyslexia friendly and "catch up reader" books. We obviously cannot display all of these in this catalogue and would urge you to visit our website for more information and to order. Below is just a taste of what we have.

Phonic Books

A wonderful and highly-structured series for beginners and reluctant readers.

Beginner Dandelion Series:
- Dandelion Launchers
- Dandelion Readers

Catch-up Readers Series:
- Moon Dog
- Magic Belt
- Alba
- Totem
- Rescue
- Talisman
- Titan’s Gauntlet

Simplified illustrated stories and card versions of Shakespeare and English Literature classics. Audio CD’s and Teaching Packs available for selected titles.

- Richard III
- The Tempest
- Macbeth
- Much Ado about Nothing
- Romeo and Juliet
- A Midsummer’s Night’s Dream
- Twelfth Night
- The Tempest
- Henry V
- The Merchant of Venice
- Julius Caesar
- The Hound of the Baskervilles
- Of Mice and Men
- An Inspector Calls
- A Christmas Carol
- Great Expectations
- Dracula
- Lord of the Flies
- Animal Farm
- Dr Jekyll and Mr Hyde
- To Kill a Mockingbird
- Frankenstein

Barrington Stoke have long been considered the best publisher of reading books for the reluctant or struggling reader. Their tinted paper and carefully chosen font are calculated to break down barriers that prevent a love of reading whether that be caused by dyslexia, visual stress, language issues or simple reluctance.

Selected Shakespeare and English Language classics in graphic novel form. The Shakespeare range has 3 versions of each title. They all have the same graphics but one has the original unabridged text, another a plain English text and the third a reduced and simplified ‘quick’ text ideal for SEN. The Classics range has an original text version, abridged to limit the page count to 120-180 pages and the quick text version.

The following are available:

- A Christmas Carol
- Wuthering Heights
- An Inspector Calls
- The Canterville Ghost
- Jane Eyre
- Sweeney Todd
- Great Expectations

Visual Stress

Teaching Comprehension Strategies
A 7 book photocopiable series that methodically and creatively teaches pupils the strategies and skills needed for effective comprehension.

- Twelve strategies covered: understanding words, finding information, identifying main idea, sequencing, comparing, predicting, concluding, summarising, inferring, cause and effect, fact or opinion, point of view.
- Original fiction and non fiction texts, customised to suit the strategy being taught.
- Detailed teachers notes for each strategy, including answers.
- Includes digital version on accompanying CD-Rom.

Reading Between the Lines – Teaching Children to Understand Inference
A core title to help develop inferencing skills. Contains a collection of 300 texts which are graded, and lead the student gradually from simple texts with picture support and plentiful clues to more challenging scenarios where true inference is required. Photocopiable. KS1-2

Inference Activities
2nd Edition. Highly regarded and easy to use workbook that will engage students with high interest scenarios. Each scenario contains shallow level inference and deep level inference questions which help to prompt critical thinking and problem solving skills.

Record Breaking Comprehension Guinness World Records
Bring reading comprehension sessions alive with engaging record-breaking stories. Brilliant high-interest series of 4 books that uses fascinating examples of world records from The Guinness Book of World Records to engage and develop reading comprehension skills.

Complete Comprehension
A unique and very popular series of books with stories with measured reading ages to develop literal comprehension, inferential comprehension and the making of generalisations and evaluative judgements. Each story is followed by groups of questions and then a cloze passage which paraphrases the preceding story. There are supplementary teaching notes for each set of texts. Photocopiable.

Cloze Encounters
A useful and effective photocopiable resource containing a series of cloze activities with:
- Controlled context clues
- Controlled omissions.
- Stories with measured reading ages from 7.4 to 11.0.

Reading Explorers
Original texts from well known authors in a variety of genres to develop literal thinking, deductive reasoning, inferential skills, evaluative assessment and study skills. Each title includes 36 lesson plans and a CD ROM with differentiated texts and activities. A super time saving series.

Reading Between the Lines – Set Two
A sequel to the very popular Reading Between the Lines. Accessible and easy-to-use material specifically targeted to improve inference. 370 engaging texts themed around different areas such as place and occupation and includes short stories about everyday events, magic and adventure. Photocopiable. KS2-3

Scanning for Details
A comprehensive resource for higher order reading skills, designed to teach alphabetical order, develop dictionary skills, and improve information retrieval. Activities include scanning indexes, directories, and charts, and scanning for relevant detail and specific information. Texts with measured reading ages from 7.0 - 11.6. 60 pages.

Getting the Idea
A “Dyslexia friendly” resource for higher order reading skills including: verbal and non-verbal categorisation, refined categorisation, writing titles, getting the main idea, skimming, scanning, mapping, writing text messages and headlines. Readability of all text passages provided. Reading ages range from 7.4 - 11.0. 60 pages.
Comprehension Skills

**Cloze Comprehension**
A high-interest cloze resource containing activities and worksheets that develop pupil’s reading comprehension skills.
- develops a wide range of reading strategies, including context clues and word recognition
- fiction and non-fiction passages to improve general knowledge and expand vocabulary.

**Differentiated Cloze**
Photocopiable differentiated cloze activities to improve reading comprehension skills. Encourages pupils in the use of context clues and resource for English language curricular requirements.
- variety of fiction and non-fiction passages.
- each cloze passage presented in two ways – with and without missing words listed.
- wide range of cross-curricular topics covered in texts. KS1/KS2

**Draw to a Cloze**
A really interesting photocopiable resource to develop comprehension skills. Features detailed drawings and high-interest topics with activities organised into two-page picture-story units, where pupil’s need to display comprehension by:
(i) reading text and drawing relevant detail onto illustration.
(ii) studying illustration and completing missing text from cloze passage. KS2.

**New Reading and Thinking**
A most successful and good value 6 book series that presents exercises in inferential comprehension and where pupils must use common sense and reasoning. Useful for KS 2 and 3 pupils who show some weaknesses in understanding text. Series progresses in both difficulty and maturity.

**More Reading and Thinking**
This extension to the successful New Reading & Thinking series is also photocopiable but features all new material for exercises in inferential comprehension for pupils to use common sense and reasoning. Builds on the levels 1-4 of the original series.

**Reading for Meaning**
A comprehension resource at a simple level to encourage children to seek meaning in text, to classify, to sequence, to evaluate and to extend their language development. Activities include: deduction, orientation, drawing from text, classification, sequencing, cloze, picture completion, true or false, interpreting text and summarising. The 4 book series progresses in both difficulty and maturity.

**More Reading for Meaning**
These books slot in-between the 4 levels of the original Reading for Meaning series to provide an increased range of activities.

**Reading Comprehension Cards**
A great value, self-checking reading comprehension programme.
These cards engage students with fiction and non-fiction stories covering a variety of topics: maths, science and social studies.
Students read the passage on the front of the card before flipping over and answering three multiple-choice comprehension questions that focus on: main idea, context clues, making inferences, cause and effect, sequencing and drawing conclusions. 60 double-sided full colour cards and teacher’s guide.
Comprehension Skills

Reasoning & Reading
Another popular series from the US publishers of Megawords. The series carefully combines reading exercises with language-based reasoning activities and includes regular writing exercises.

Parts and Wholes, Analogies, Main Idea, Inferences, Following Directions, and Fact and Opinion are a few of the topics covered along with many more.

Beginning - Year 4–5.
Level 1 - Year 6–7.
Level 2 - Year 7–8.

Reading Comprehension Smart Chute Cards
Main Idea - Read the sentence and choose which multiple-choice answer best describes what the main idea is.
Context Clues - Use clues in the sentence to work out the meaning of a new word.
Fact or Opinion - Determine whether the sentence is a fact or an opinion.
Cause and Effect - Work out what happens next using the context clues in the sentence. Work out what the cause and the effect is in the sentences.
Inference - Students use previous knowledge and the information on each card to answer inference questions.

Listening Skills

Thinking Skills Through Comprehension
An excellent high-interest photocopiable series providing opportunities for pupils to think critically, logically and creatively to solve mystery stories.
Challenging and stimulating detective-style activities encourages a range of thinking skills, data collection and conclusion-drawing. Answers, curriculum links and teachers notes provided.

Middle - KS2 7-9 years. Upper KS2 9-11 years.

for more information visit w w w .cambridgehouse education.com
Writing Skills. Diana Hanbury King
This is a comprehensive writing program for beginning, struggling, at-risk, or reluctant writers. For these writers, this structured program provides an essential foundation in thinking and writing skills. For proficient and advanced writers, it offers strategies, techniques, and opportunities to apply them.

Book A - Year 3-5  Book 1 - Year 6-7
Book 2 - Year 8-9  Book 3 - Year 10-13

Ideas include: personification, alliteration, overused words, punctuation; notes and tips on how to write in particular genres.

Writing Scaffolds
A best selling series to teach children how to plan and write stories in a variety of genres, while also incorporating specific grammar, vocabulary and writing features. Each Guide contains amongst much else, background information, exemplar stories, guidance on teaching specific grammar and punctuation skills and notes and tips on how to write in particular genres. Resource books have illustrated exemplar stories written by children; notes and activity sheets on grammar and punctuation; notes and tips on how to write particular genres; differentiated writing scaffolds; differentiated vocabulary banks.

There are sections on figures of speech, personification, alliteration, overused words, vocabulary alternatives and more. Each book contains 48 pages (170 x 250mm).

How to Write
Like a Writer
Writing Skills for reluctant writers - working with the three concepts of narrative, description and dialogue, starts from first principles and finishes with questions of style and advanced punctuation. Enables students to create content and put it together accurately. Instills a sense of audience and a pride in work that is necessary for success.

A multisensory resource including games and oral activities and full of engaging visual prompts. It is suitable for Secondary and older Primary Students. 122 pages, photocopiable, supplied with CD for printing pages as required.

The First Sentence Writing Book
Ideal for reluctant writers or pupils who have difficulty with sentence construction, pupils with a limited expressive vocabulary, or pupils who are just starting to write in sentences. The early worksheets are based on the most commonly used words. From here the work progresses through compound sentences, use of adjectives and adverbs, to the construction of simple stories. Common grammatical errors in sentence structure are addressed throughout the book. Contains 68 pages.

Descriptosaurus – 3rd edition
A brilliant book for that will help anybody struggling with creative writing. It is the first book that is a thematic expansion of a dictionary and a thesaurus. It provides children with a comprehensive resource with which to expand their descriptive vocabulary, experiment with language and sentence structure and build up narratives based around the following areas: Settings – landscapes, settlements and atmosphere, Characters – appearance, emotions and personality, and Creatures – appearance, abilities and habitats. Ages 8-14

Writer’s Directory
Give children confidence in their writing, as well as expanding their vocabulary and providing inspiration. Can be used before pupils start writing, to plan events and characters; during writing, to find an appropriate adjective; and whilst editing, to check spelling and find alternatives for over-used words. The directory has an easy-to-use index system and contains a variety of sections, from ‘look’ and ‘sound’ to ‘place’ and ‘feelings’. A5.

Non-Fiction Writing Directory
This cleverly designed directory takes students through the steps of constructing a piece of non-fiction text. Six different types of non-fiction texts are identified: Explanation Texts, Reports, Discussion Texts, Persuasive Texts, Recounts and Instructional Texts. Students are guided through the various stages from planning, to writing, to editing. Each text type is themed and examples of writing structure and language features relating to that theme are given.

Poetry Writing Directory
Everything you need to know about writing poetry comes in this handy desk top directory. Covering 20 different poetry styles from simple visual poems in free verse to rollicking ballads with more formal rhyme and metre. Each poetic form is fully explained with writing tips and examples that will enthral your students.
Handwriting

Re-Write

Part One This is a structured, cumulative handwriting programme created by Valerie Hammond. The photocopiable material uses grided paper to ensure correct letter formation that is orientated to the vertical line as well as the more usual horizontal line. It can be used as an initial handwriting programme teaching fully cursive script, or in the remedial setting. It aims not just to teach but to develop fluency.

Part Two This book follows on from Part One which focused on letter formations and joining. Part Two aims to develop the handwriting motor patterning required for the writing of words containing common spelling patterns. It contains illustrated rhyming material which motivates and develops the pupil’s hand in learning spelling patterns. It contains illustrated photocopiable instruction sheets, sequenced skills, movement & coordination.

Part Two

Exercise book. Opposing pages with squared graph paper for the practice of orientation of letters to the perpendicular and horizontal; the other with shaded lined paper, for the positioning of mid-zone letters and orientation to a single line. Inside front cover are body, paper and pencil positioning guidelines and inside back cover is a checklist for the rules of handwriting.

Left Hand Writing Skills

An excellent and much needed resource for the left hander of any age. Starting in Book 1 with establishing good basic habits in positioning and developing fine motor skills through to Book 3 and ‘smudge free’ writing, perfectly accurately formed and legible work. Many useful diagrams and worksheets.

Pencil Grips – Essential Pencil Grip Kit

An assortment of 20 pencil grips: Classic - right hand (x2), Classic - left hand (x1), Skittle (x3), Write (x1), Dolphin (x1), Comfort (x2), Ridged Comfort (x3), Stegosaurus (x1), Squoosh (x2), Soft Triangular (x3), Large Soft Triangular (x1).

Pencil Grips – Stegosaurus Grip

All the advantages of specific indents for each finger and is completely logical to use. It’s fun, but technical too, as it trains the fingers by:
- Naturally holding the fingers in the correct tripod position. • Using his stumpy spines to stop fingers crossing over. • Using his carefully designed bottom to support finger joints that flex too much. The user instinctively holds it the right way up and the right way round (head first). Contents: 4 in a pack.

Pencil Grips – SquooshıGrip

Sparkling new squooshi pencil grip not only looks fantastic, but also helps with handwriting issues. The silicone material makes it easy to use and the triangular design with finger and thumb indents give even more comfort and control. Contents: 5 in a pack - colours may vary.
Memory Skills

Developing Memory Skills in the Primary Classroom
A one-stop resource for any teacher, SENCOs, teaching assistant or parent wanting to help children develop their working memory. A highly practical book that contains all the guidance and resources needed to boost pupils’ working memory. Programme combines teaching pupils memory strategies with opportunities to practice those strategies.

Memory Magic
An exciting resource to assess and develop working memory at KS 1 – 3. Consists of 63 fun packed and graded activities which are divided into 7 “Magic Tricks” to help children discover how to support working memory and learning. Provides: Introduction to working memory; Quick assessments to identify whether language and learning are being affected by language processing or working memory difficulties; Colourful worksheets provide activities to help develop memory skills; Ideas for supporting the generalisation of strategies in the classroom at each KS.

Working Memory Challenges
A new workbook. Highly engaging printable and photocopiable activity sheets. Dozens of high interest questions to prompt memory and receptive language skills. Entry, intermediate and advanced level questions that gradually become more difficult and challenging. An informal pre-post test to establish a baseline and rating forms to chart progress.

Listening for Mistakes
A fun way to practice and assess listening comprehension. Really helps to extend memory, speaking, listening and critical thinking skills.

6 Memory Skills Board Games
Memorise, Match and Spot the Difference with this set of 6 x A3 Memory Skills Board Games! Practise linking techniques for memorising lists; spot picture differences and visually match memorise patterns, position and pictures.

Auditory Memory Skills
Enables children to improve their auditory recall ability in a focused, innovative and enjoyable way. It is packed with over 40 beautifully illustrated photocopiable activities, and divided into easy-to-use sections of increasing difficulty.

Visual Memory Skills
A fantastic resource to boost children’s visual recall skills. Children will love the imaginative tasks, and won’t even realise they are practicing this important skill as they work through these challenging activities.

Memory Skills Chute Cards
This set of 4 packs of Chute Cards have been designed specifically to develop visual memory skills and improve working memory. On the front are pictures, numbers, and/or colours to memorise. The flip side of the card then asks a question, e.g. showing the same illustration with something missing. Available individually or as a set.

Following Instructions Chute Cards
Read the instructions written on the front of each card and attempt to draw the shapes described. Progresses from one-step instructions to multi-step and can also help auditory memory when instructions are read aloud. Perfect practice for those who find breaking larger tasks down into smaller steps or following instructions difficult. 4 levels. Over 50 cards.
Confidence, to ensure success throughout and plan work, improve skills and boost confidence-building techniques, the teacher, through self assessment, practice guidance and tools provided helps organise and other learning differences. The Referral Units. Shows the reader how to individual study skills, including organisation, work with a learner’s dyslexia. Covers strategies for doing things differently to reading, writing and taking exams. This fully revised and updated new edition is an essential read for students with dyslexia. From the Pocket Study Skills series. Full of practical advice and visual examples, this friendly and easy-to-read guide suggests core study skills and will provide strategies to enrich teaching. Accessible with strong visual design. Written for the school leaver this benchmark teacher resource is helpful across all age ranges providing an insight in to all core study skills and will provide strategies to enrich teaching. Accessible with strong visual design.

**Study Skills: A Teaching Programme for Students in Schools and Colleges.** Pat Guy

Provides a series of lesson plans making up a taught study skills course for secondary schools, sixth forms, FE colleges and Pupil Referral Units. Shows the reader how to teach, through self assessment, practice and confidence-building techniques, the techniques and self management required to achieve independent study skills.

**Study Skills for Students with Dyslexia.** Hargreaves. 3rd edition

Packed full of advice on topics such as note-taking, reading strategies and exam techniques, this fully revised and updated new edition is an essential read for students with dyslexia and other learning differences. The guidance and tools provided helps organise and plan work, improve skills and boost confidence, to ensure success throughout studies.

**Studying with Dyslexia.** 2nd edition

From the Pocket Study Skills series. Full of practical advice and visual examples, this friendly and easy-to-read guide suggests core strategies for doing things differently to work with a learner’s dyslexia. Covers individual study skills, including organisation, reading, writing and taking exams.

**Study Skills for 13+ and beyond**

Suitable for all pupils at KS 3, but is focused on preparation for 13+ entrance exams. It offers a holistic approach to study to give pupils the essential skills and tools they need to learn and revise efficiently, cope with stress effectively and feel confident and fully prepared to do their very best in exams. Information to help pupils learn how to learn in the best way for them. Preparation techniques to make the most of their revision time. Revision tips, exam techniques and presentation skills for the array of assessments at Key Stage 3/13+.

**The Study Skills Handbook.** Stello Cottrell. 4th Edition

Big Book of Graphic Organizers

A really helpful book demonstrating how graphic organisers can help in the learning environment particularly to extract from texts ideas, concepts and meanings and how to connect them.

**100 Ideas for Secondary Teachers: Revision**

A diverse range of activities, games, tips and tricks that teachers can use in the classroom to help guide students through this stressful period.

**100 Ideas for Primary Teachers: Revision**

A diverse range of activities, games, tips and tricks that teachers can use in the classroom to help guide students through this stressful period.

**Mind Maps for Kids**

An Introduction

Explains Mind Mapping using step-by-step examples. It shows just how easy it is and how it can help pupils in their study time. A full-colour workbook, with the emphasis on having fun. As well as tips for improving memory and concentration, the book is packed with jokes, cartoons and brain teasers.

**Study Skills.**

Previously known as Rev Up for Revision this title highlights how Mind Mapping can be a system of planning and note-taking that can save time and boost learning; improve memory and concentration, remember facts and figures easily, and make revision fun.

**Exams, Tests, Revision Pocketbook**

Another from the excellent Teacher’s Pocketbook series this provides strategies, activities and techniques for teaching examination classes.

**Graphic Organisers for Reading / Writing / Any Subject**

A great tool for helping pupils become better learners. They help pupils to process, analyse and synthesise their ideas, concepts and meanings. 3 titles each with 60 graphic organisers to develop reading comprehension and analysis across a range of genres; to help learners become better writers of fiction & non-fiction; that can be adapted to most subject areas for studying or communicating all sorts of ideas on all sorts of topics.

**Big Book of Graphic Organizers**

Graphic Organisers for any subject

A really helpful book demonstrating how graphic organisers can help in the learning environment particularly to extract from texts ideas, concepts and meanings and how to connect them.

**Graphic Organisers for any Subject**

A really helpful book demonstrating how graphic organisers can help in the learning environment particularly to extract from texts ideas, concepts and meanings and how to connect them.

**Revision Games**

Geography - On the Map

Science Scramble Biology
Science Scramble Chemistry
Science Scramble Physics

Based on KS3/CE syllabuses these games bring revision and reinforcement to life in an engaging and competitive format.
### Maths

**The Dyscalculia Assessment.**
Jane Emerson & Patricia Babtie  
A key tool and key publication for SENCOs, TAs, educational psychologists and mainstream teachers introducing dyscalculia, how to conduct assessments, what to look for, how to interpret, the equipment needed, how to use it and games and activities to engage pupils and reinforce numeracy skills.

**The Dyscalculia Solution.**
Jane Emerson & Patricia Babtie  
Following on from The Dyscalculia Assessment. Once assessment has identified the particular numeracy difficulties this title provides a practical teaching guide for addressing and solving those difficulties. Includes step-by-step instructions on how to teach pupils with numeracy difficulties. Accompanying materials in both print and electronic formats to support busy teachers by providing lesson plans and worksheets.

**Teaching Mathematics VISUALLY and ACTIVELY.**
Tandi Clausen-May  
This practical book provides primary and secondary teachers with advice and resources to develop a visual and active approach to teaching mathematics. Comes with a helpful CD, offering resources and practical activities.

**Making Maths VISUAL and TACTILE.**
Judy Hornigold  
Learn how to teach maths in a visual and tactile way and read about the various types of manipulatives for teaching early number skills. Illustrated guide.

**More Trouble with Maths.**
A Complete Manual to Identifying and Diagnosing Mathematical Difficulties. Steve Chinn  
2nd edition. Highly practical and well respected resource. Central to this edition is a range of standardised tests and diagnostic activities, including a 15 minute test of basic mathematics, a thinking style test, tests of basic fact retrieval and maths anxiety.

**The Trouble with Maths.**
Practical Guide to Helping Learners with Numeracy Difficulties. Steve Chinn  
3rd edition. Provides vital insights into the often confusing world of numeracy. Combines advice, guidance and practical activities. Pre-emptive measures, help to develop thinking styles and alternative strategies and selection of appropriate materials are all covered.

**Understanding Dyscalculia and Numeracy Difficulties.**
A Guide for Parents, Teachers and Other Professionals  
From the authors of The Dyscalculia Assessment/ Solution. A complete, accessible guide to understanding dyscalculia and poor numeracy, this covers number sense and how the brain processes numbers, assessment, planning intervention, what to teach, how to teach it, and how parents can help.

**Overcoming Difficulties with Number.**
Ronit Bird  
Detailed strategies for teaching numeracy skills through a progression of practical activities and visualisation techniques. Topics covered include games and puzzles for learning number components, bridging, multiplication, division, reasoning strategies.

**The Dyscalculia Toolkit.**
Ronit Bird  
The 3rd edition of this bestselling book continues to meet the needs of specialist and non-specialist teachers working with learners who have difficulty with maths and number. Over 200 activities and 50 games, new and improved illustrations, and an expanded list of recommended readings, useful websites & resources, the new edition also includes exclusive access to a brand new companion website.

**Mathematical Mindsets: Unleashing Students’ Potential.**
Jo Boaler  
A very successful title. Provides practical strategies and activities to help teachers and parents show all children, even those who are convinced that they are bad at maths, that they can enjoy and succeed in maths.

**Maths Learning Difficulties, Dyslexia and Dyscalculia - 2nd edition.**
A new book explaining the latest research in the science of dyscalculia in a clear non-technical way. Provides robust interventions that focus on helping pupils to strengthen their ability to process numeracies and link them to the familiar number symbols, counting words and digits.
Dyscalculia - Target Ladders
Part of a strong series helping teachers to implement the Code of Practice. Covers foundation skills, the number system, addition and subtraction, multiplication and division, shape and measure, money and problem solving, data handling and fractions, behaviours for learning.

CODE 9781855035935 PRICE £15.99

100 Ideas for Primary Teachers: Numeracy Difficulties and Dyscalculia
Written by Patricia Batie this provides specially-designed games and activities to help build firm foundations in basic number concepts. The book begins with a focus on counting skills, before moving on to place value structure, multiplication and division. The aim is to teach understanding and key facts so that pupils will become flexible thinkers who can use numbers to solve a variety of mathematical problems.

CODE 978144169730 PRICE £14.99

Dyscalculia Pocketbook
More from the excellent Teacher’s Pocketbook series. All about Dyscalculia and ways to identify it and develop support strategies.

CODE 9781906610845 PRICE £9.99

Minute a Day Maths
A favourite for warm-up / homework / reinforcement activities. A photocopiable resource suitable for both parents and teachers. It offers intensive, focussed practice of key maths skills using 42 precision-teaching based games.

CODE DP02 PRICE £10.95

What to Do When You Can’t Tell the Time
A fresh look at how to teach the concept and language of time. Strategies and ideas to raise confidence in working with time for Dyslexic and other struggling learners.

CODE 9781904160984 PRICE £12.50

Perform with Time
Part of the popular Plus 1/Power of 2 series. All aspects of working with time in everyday situations. It can be used as a stand alone coaching book or as a follow on to Power of 2.

CODE 9780953981229 PRICE £18.00

for more information visit www.cambridgehouseeducation.com

Maths Made Easy
Maths Made Easy Presents a simple and structured approach to numeracy allowing children to develop and build numerical skills. Introductory Book - Provides a kinaesthetic approach to learning to write and count numbers 1-10 with early adding-on exercises. Book 2 - Recognition of numbers 0-100. Counting on and counting back.

Book 3 - Tens and Units, addition and subtraction, difference.
Book 4 - Numbers to 999, number bonds to 20, multiplication by 10 and 5.
Book 5 - Numbers 0-999 counting in 2s, 3s and 4s.
Book 6 - Multiplication by 6, 7, 8, 9, 11, 12. simple division and fractions.
The Money Book - Coin recognition, work with coins.
The Time Book - both analogue and digital.

Word Problems the Language of Maths
A sister publication to Getting to Grips with Word Problems and using a gradual and structured approach, this book makes a traditionally difficult aspect of mathematics much more accessible and comprehensible. Spiral bound.

CODE QD04  PRICE £12.50

Fizz Buzz - 101 Spoken Numeracy Games
An excellent way to introduce new concepts, assess progress, begin a maths lesson, this 64pp A4 book of lively oral number games are suitable for ages 4 - 11 and offer alternative ways to make the games easier or more difficult.

CODE 9781855033528  PRICE £15.99

Plus 1
The introductory book to this very successful series. For one to one use teaching mental maths. Give highly structured support, saves planning time and records all progress. The book puts in place foundations of number. It covers basic counting and introduces addition and subtraction.

CODE 9780953981212  PRICE £18.00

Power of 2
Covers all aspects of mental maths that are needed to access the full maths curriculum. Students progress at their own pace and gain a sense of success and confidence. For one to one use.

CODE 9780953981205  PRICE £22.00

Perform with Times Tables
Takes an unusual twist on learning times tables. It has proved highly effective and enables students to become confident with multiplication and division.

CODE 9780953981236  PRICE £18.00

SpLD Times Tables
Designed to help SEN pupils to learn the 2 – 10 times tables. Provides a range of activities to help with memorisation of the multiplication facts. Includes comprehensive teacher’s notes. 79 pages. Photocopiable.

CODE KS25  PRICE £17.95

What To Do When You Can’t Learn The Times Tables
A fresh approach from Steve Chinn to tackling the times tables. Provides pictures and images to help understand, work out or remember the facts.

CODE 9781904160984  PRICE £12.50

Fractions
A three-book series dealing with all aspects of fraction work. Decimals and percentages are included for pupils in KS2. Provides a comprehensive approach to teaching fractions. Each book contains teacher notes, warm-up activity ideas, hands-on tasks, and pupil copymaster worksheets, assessments and pupil checklists at the end of each section.

Maths Dictionary
A brilliant resource. Over 200 mathematical words and expressions with explanations in easy-to-understand language illustrated with simple diagrams. Also includes multiplication tables from 2x to 13x, squares and cubes table, commonly used vulgar fractions with their decimal and percentage equivalents, useful graphs, angle rules and information on metric and imperial measurement.

CODE NB164  PRICE £3.95
Maths Games

Mental Maths Bingo
Cleverly replicates some of the pressure felt by pupils during KS2 oral SATs as they must beat opponents and be the first to give correct answers to number, time and measure problems.

Sum Fun Maths Game
An addictive game, not unlike Bananagrams but using number and operator tiles to help with number skills. Using addition, subtraction, multiplication and division tiles, can be used either one-to-one or in multi-player groups to boost numeracy. The tiles are used to build interconnecting sums which as well as developing numeracy skills provides greater learning through interaction and enhanced problem solving skills.

Matchmatics Maths Game
Equation matching games to develop mental calculation strategies and instant recall of multiplication, division, addition and subtraction facts. Beginners set uses the four operations at a basic level where all the answers to the equations range from 1 to 10. Advanced set uses the four operations at a more challenging level.

Savvy Maths Games
A fun way to learn and practice key maths operations. Answer questions on the face check against answer on the reverse.

Arithmanix
A quick, simple but very effective game that can be used in one to one or group sessions. Will improve mental arithmetic, number bonds etc as players add, subtract, multiply or divide the right combination of cards in their hand to equal the number on the upturned "pile" - the Arithmanix number. Not dissimilar to "Countdown".

Roll A Sum
Helps develop number sense, place value, mental calculation and counting.

Percentages, Decimals & Fractions Bingo
Encourage recognition and matching of fractions, percentages and decimals. See and learn the equivalences across these concepts.

What’s My Number
Similar to “Guess Who’. Highly interactive game board where players ask questions and flick down numbers to best predict their opponent’s number.

Number Rumbler
A new card game to help develop number sense and maths fluency. A pack of 50 cards with numbers written - and drawn - in different ways. Pupils get a better sense of how the numbers relate to one another and become more fluent when they are calculating and estimating.

What’s The Time? Bingo
Consolidate time concepts with this fun multisensory time bingo game.

**Mental Maths Smart Chute Cards**
Practise recall of times tables, Add, Subtract, Double, Halve, Multiply and Divide key number facts to help memorise vital number knowledge. Provides the perfect medium to practise and rehearse these facts, without the process becoming tiresome, until knowledge is secure. The set is available as a whole or cards are available individually. 13 x Chute Card Sets: Addition Levels 1, 2 and 3; Subtraction Levels 1, 2 and 3; Doubles or Halves Levels 1 and 2; Division Levels 1 and 2; and Multiplication Levels 1, 2 and 3. Smart Chute not included. Card sets individually are £5.99*. Set does not include Smart Chute.

**Visual Multiplication - Smart Chute Cards**
See, explore and understand number values within number sentences. Utilise the picture to understand and answer multiplication problems (from 2-10 tables). Each question uses a variety of vocabulary including, lots of, multiplied, product, total, times and array to aid and extend learning.

**Visual Multiplication - Smart Chute Cards**

Practical Maths Resources

Maths Resource Pack
Maths Resource Pack (8 Resources supplied in zipped wallet). The maths resource pack can be used with pupils of all ages for maths across the curriculum. Each zip wallet pack contains: 1 x Multiplication Wheel 1 x Mini Clock 1 x Maths Language Swatch 1 x Fraction / Decimal / Percentage Card 1 x 100 Square / Decimal / Percentage Card 1 x Measuring Chart 1 x Numbers / Roman Numerals 1 x Blank Number Line.

Fraction Circles, Squares and Tiles
Proportionally sized pieces representing a whole, halves, thirds, quarters, fifths, sixths, eighths, tenths & twelfths in 9 distinct colours with printing on each piece. Supplied in a sturdy plastic tray.

Red/Blue Counters - 200pcs
Pack of plastic counters, double-sided in 2 colours (red and blue).

Base Ten Place Value Set
Helps illustrate the relationships between units, tens, hundreds and thousands and can help children visualise numbers when learning basic addition, subtraction as well as multiplication and division in 10s. Each block is marked in centimetre squares to highlight how each unit relates to it.

Ten Frames Activity Set
Activity set with 8 ten frames, 50 x 2-colour counters and 16 activity cards, all stored in a sturdy plastic container.

Place Value Slider Pack
Ideal for multiplication, division and place value. Write on/wipe off surface. Dimensions: 140 x 270mm. Pack of 10.

Place Value Flip Stand
Freestanding flip stand features 4 sets of flips each with numbers 0-9 and ones to thousands.

Tell Time Flip Stand - 12 & 24 hours
Freestanding flip charts showing the 12 hour clock face and numbers for the 24 hour or 12 hour digital time. Movable colour coded hands, to coordinate the hands on the clock face and the time on the flip chart.

Printed Fraction Circles
CD53851 £7.99*

### Magnetic Number Lines Level 1 & 2

**Level 1** - Blank number line (with 11 dividers)  
- Number Beads (0-50) + 0-50 (in 1s) + 50-100 (can be joined to 0-50) + 0-30 (in 1s).  
- Level 2 - Counting 0-1000 (in 100s)  
- Counting 0-100 (in 10s).  
- Blank number line (with 11 dividers).  
- Integers - 11 to 11 (in 1s)  
- Decimals - 0-2.0 (in jumps of 0.1), each pack 5 lines.  
- Write on wipe off, 60cm.

### Clear Spinner

Made of sturdy clear plastic with non-slip feet, approximately 4.5 ins square.

**CODE**: CR33  
**PRICE**: £2.99*

### 0-100 Number Lines

Double-sided, write-on, wipe-off surface.  
0-100 bead string and line on front, counting stick on reverse (add your own range of numbers using a dry-wipe pen).

The Complete Guide to Special Education – 3rd edition
A valuable resource, it covers the intervention process, how to read and understand evaluations, the different disability categories, and how to work through the process. An understandable yet comprehensive resource on how to work collaboratively to meet the special educational needs of a child.

Rona Tutt's Guide to SEND & Inclusion
Examines both the benefits of the recent SEND reforms and also the opportunities that have been missed to meet needs more flexibly. Content focuses on creating a climate where all children can thrive, an appreciation for the variety of innovative ways school leaders are meeting the needs of students, a consideration of the wider context of SEN from local to national level. Clear and accessible, this is an inspiring read for anyone concerned with how individual needs are best met, rather than where their education takes place.

The SENCO Survival Guide: The nuts and bolts of everything you need to know.
Sylvia Edwards
Informative resource containing practical advice to help SENCOs manage their responsibilities and lead their school effectively towards a common goal. Sets out the government’s fresh agenda for whole school discussion and helps SENCOs at every stage to manage changes in SEND policy and practice.

Rita Cheminais’ Handbook for SENs
Covers the new SEND Code of Practice, planning and deploying the SEN budget, working in partnership with young people, parents and other professionals, how to deal with the new paperwork requirements, building capacity among staff and self-evaluating the quality of your settings provision.

The SENCO Handbook. Cowne, Gerschel & Frankl
Gives vital information, practical approaches to the SENCO role and responsibilities, and perceptive analysis of issues, relevant to all schools. Helps all SENCOs, headteachers and school leaders to create and implement effective whole-school policy and practice for special educational needs.

The Post-16 SENCO Handbook
An accessible, practical handbook that provides essential guidance to SENCOs in sixth forms and colleges of further education on how to manage the support of students with additional needs, and how to work with their colleagues, students’ families and external professionals to coordinate effective provision.

The Teacher's Guide to SEN.
Natalie Packer
Outlines what all teachers, be they class or subject, primary or secondary, need to know about SEN and provides a range of practical hands-on strategies, tips and ideas that can be applied in the classroom.

The Ultimate Guide to Differentiation – Achieving Excellence for All
Offers over 90 practical and time-saving strategies for effective differentiation in every classroom.

Bob Bates
An easy go-to guide with pragmatic solutions to the challenges of teaching children and young people with additional needs. Detailing over 60 conditions which cause people to have additional needs, helps broaden understanding of different physical, neurological, psychological, and developmental needs with accessible bite-sized explanations of the conditions, best practice approaches to working with these learners, and how to apply them to everyday teaching.

Specific Learning Difficulties – What Teachers Need to Know.
Diana Hudson
Covering common SpLDs, including dyslexia, dyspraxia, dyscalculia, Autism Spectrum Disorder, ADHD and OCD, this book offers practical tips for adapting lessons to suit the needs of the individual student and making your classroom inclusive.

Beating Bureaucracy in Special Educational Needs:
Helping SENCOs maintain a work / life balance
Provides support for school leaders, SENCOs and anyone undertaking the national SENCO award. A practical and engaging guide, this new and updated edition shows how to put responsibility for supporting children with most types of additional need firmly back where it belongs – with class and subject teachers. It will help you – in the words of one SENCO – ‘get your life back’.
The Parents’ Guide to Specific Learning Difficulties. Veronica Bidwell

Packed full of advice and practical strategies, this book is a one-stop-shop for supporting children with SPLD. Ranging from poor working memory, dyslexia, dyspraxia, dyscalculia, through to ADHD, ASD, APD, Specific Language Impairment and Visual Processing Difficulty, it explains clearly what each difficulty is, how it can affect a child’s learning and how to help a child to succeed.

Meeting Special Educational Needs in Primary Classrooms. Sue Briggs

A practical book full of guidance for teachers and teaching assistants who support children with SEND in mainstream primary classrooms. Covers all aspects – planning, teaching and learning, successful communication between teachers, parents and students. Contains photocopyable resources and templates.

Meeting Special Educational Needs in Secondary Classrooms. Sue Briggs

Similar to the above Primary Classrooms title but focuses on the Secondary years and explains the challenges that these children face. Full of practical guidance.

Assessing Children with Specific Learning Difficulties. A Teacher’s Practical Guide

The why, how and what of assessment is addressed with practical guidance on implementing strategies. Covers SpLDs in context, assessment in literacy, numeracy and movement, motor development and co-ordination, attention factors in learning, the key issues on learning differences, self-esteem and emotional literacy, how to enhance skills and the self-sufficiency.

Identifying Special Needs: Checklists for profiling individual differences

A hugely helpful resource offers guidance and checklists to help teachers quickly recognize and screen any student for possible special needs, understand causes and characteristics, request and prepare for an intervention or IEP team meeting, link classroom observations to diagnostic criteria used by specialists, create accurate and comprehensive profiles for individual students and much else.

How the Special Needs Brain Works

We like this book as it explores the causes of many common learning disorders but then provides strategies and the latest alternative teaching approaches to differentiate instruction in speech, reading, writing, and mathematics. Published in USA.

Provision Mapping and the SEND Code of Practice.

Anne Massey

Provides clear guidance on how to implement a simple and tried and tested system that helps schools to successfully identify, implement and track provision for all pupils, irrespective of whether they have a special educational need or not.

Teaching Assistant’s Pocketbook

Covers the nuts and bolts of day-to-day practice but also addresses nitty gritty realities.

Differentiation Pocketbook

Differentiation is a fundamental part of teaching. Turning theory into practice and including 20 key types of differentiation, this Pocketbook is about planning and teaching creative, student-focused lessons where every learner is appropriately challenged and where engaged, stimulated and motivated students work in a state of ‘flow’.

EAL Pocketbook

The EAL Pocketbook is for teachers of pupils learning English as an additional language, whether in rural or urban contexts. It provides tips, tools and techniques to ensure that all pupils can thrive in their learning.

100 Ideas for Early Years Practitioners: Supporting EAL Learners

Offers advice on how to welcome and provide for children with EAL and how to support their families, taking into consideration their unique identities and culture and ensuring that these are preserved and appreciated in the setting. With links to all areas of the curriculum and specific focus on language acquisition, each idea is straightforward and can be easily adapted and developed to suit children’s individual needs.

100 Ideas for Primary Teachers: Interventions

Offers advice on how to welcome and provide for children with EAL and how to support their families, taking into consideration their unique identities and culture and ensuring that these are preserved and appreciated in the setting. With links to all areas of the curriculum and specific focus on language acquisition, each idea is straightforward and can be easily adapted and developed to suit children’s individual needs.

Growth Mindset

Learners with growth mindsets are more: open to challenges and constructively critical feedback; resilient in the face of obstacles and failure; convinced that effort makes a difference; able to learn well with and from others; likely to succeed. The Growth Mindset Pocketbook is full of classroom strategies for doing just that.

Growth Mindset Lessons

A ‘must-have’ handbook for anyone looking to embed a growth mindset culture across their primary school.
The Dyslexia Assessment
A host of practical hands-on activities and strategies to help clarify the practice of dyslexia assessment. Applicable to all sectors, from Early Years to Higher Education, this new title contains details of formal and informal assessment, and includes practical and useful discussion on how the dyslexia assessment can interface the different subject areas of the curriculum.

Assessment of Learners with Dyslexic Type Difficulties – 2nd edition
Reinforcing best practice techniques, the second edition of this comprehensive guide enables teachers to understand a range of approaches to the assessment of children with dyslexic-type difficulties. It includes a new chapter on the Implications of Co-existing Specific Learning Difficulties, updates to legislation including the SEND Code of Practice, updates to specific diagnostic tests, examples of interpreting test profiles and photocopiable resources available to download from the website.

Teaching Literacy to Learners with Dyslexia: A Multisensory Approach by Kelly & Phillips
Provides a structured multi-sensory programme for teaching literacy to children and young people with dyslexia and other specific literacy difficulties. Supported by a wealth of resources available online and updated throughout, includes a section on implementing the Accelerated Programme for learners who have already acquired some literacy skills.

Supporting Children with Dyslexia – 100 Ideas Series for Primary and for Secondary
Two books each offering 100 practical ready to use activities to help all teachers. Each cover key areas of curriculum. Primary includes maths, spelling, creative writing, and ideas on differentiation, memory strategies and planning: Secondary includes English, Maths and PE, plus loads of practical advice on key areas of personal development, from self-esteem and staying motivated to effective study skills.

Supporting Children with Dyslexia. 2nd edition
Revised for the 2014 code this provides valuable advice and resources for teachers, TAs and SENCOs supporting pupils with dyslexia.

Dyslexia-friendly Strategies for Reading, Spelling and Handwriting
Dyslexia-friendly approaches to best practice. Full of new research, case examples and practical methods tried and tested in the classroom.

Dyslexia Pocket Book
Another useful Teacher’s Pocket Book it starts by defining dyslexia and then moves on to consider the benefits of multi-sensory learning. Practical tools and techniques are provided for reading, handwriting, spelling, maths, speaking & listening, music, study skills and organisation.

Help! My Child has Dyslexia.
Judy Hornigold
An invaluable book to help parents understand dyslexia and full of practical ideas that are not only fun but have been proven to work in helping dyslexic children to overcome the problems that they are face. Includes photocopiable templates, simple games and activities and a substantial section of invaluable resources.

That’s the Way I Think.
Dyslexia, Dyspraxia, ADHD and Dyscalculia Explained. David Grant. 3rd edition
An invaluable and insightful reading for those with specific learning differences as well as their parents and/or partner, teachers, teaching assistants and SENCOs.

Dyslexia – Target Ladders
From a good series helping teachers implement the Code of Practice. Covers phonological awareness, visual and auditory perception and memory, phonics and spelling, reading comprehension and fluency, writing – handwriting, punctuation, sentences and text, planning, organising and remembering, self-confidence and motivation.

Fun Games and Activities for Children with Dyslexia – How to Learn Smarter with a Dyslexic Brain
Full of fun, practical games and activities accompanied by charming cartoons for learners aged 7 - 13 with dyslexia, this book makes learning easy and entertaining. Written by a dyslexic tutor for dyslexic students, the tips are embedded in first-hand experience and will inspire and motivate any reader to aim high.

Visit www.cambridgehouseeducation.com for more information.
Dyspraxia/DCD

Supporting Children with Dyspraxia and Motor Co-ordination Difficulties. 
2nd edition
Completely revised and updated for SEND 2014 Code of Practice, this edition offers practical tips and strategies on how to meet the needs of children and young people with dyspraxia and other coordination difficulties. Features time saving checklists, templates and photocopyable resources to support professional development.

CODE 9781388550833 PRICE £23.99

The Dyspraxic Learner. Strategies for Success.
Alison Patrick
Offers key strategies for teaching dyspraxic learners in secondary and tertiary education. Practical teaching resources, covering key areas such as literacy, numeracy, memory and study skills.

CODE 9781849055949 PRICE £16.99

Developmental Dyspraxia: Identification and Intervention.
Madeleine Portwood
While a bit old now this book is still very popular. As a reviewer wrote; ‘This book does not dwell greatly on ideals or hypotheses, nor on soothing chat. The reader will find practical, well-organized information on a good variety of ways to assess and train a child’s abilities without highly specialized equipment.’

CODE 9781853465734 PRICE £30.99

Understanding Dyspraxia.
A Guide for Parents and Teachers.
Maureen Boon
Provides clear and positive answers to questions commonly asked by parents and teachers about dyspraxia. Identifies the characteristics of dyspraxia, explaining assessment procedures and identifying what can be done to help.

CODE 9781849050692 PRICE £12.99

Fidget Busters
Fidget Busters provides a wealth of stimulating activities that connect movement and learning. All the activities involve minimum resources and disruption, and the majority may be used within the confines of the classroom.

CODE 9781855034822 PRICE £18.99

Sensory Circuits: A Sensory Motor Skills Programme for Children.
Jane Horwood
Children with sensory integration difficulties often struggle to engage effectively with the physical, social, emotional and curricular challenges of the school day. This is a fantastic new programme of physical activities that provide regular and controlled input to specific sensory-motor systems enabling children to be energised or calmed so that they can get the most out their day.

CODE 9781855034716 PRICE £15.99

Beating Dyspraxia with a Hop, Skip and a Jump.
Geoff Platt
A Simple Exercise Program to Improve Motor Skills at Home and School. With new lesson plans and an extra stage to the programme, the expanded edition of this practical book explains Geoff Platt’s simple, step-by-step exercise regime to help children with dyspraxia overcome their symptoms.

CODE 9781849055604 PRICE £12.99

Multi Sensory Activities for Improving Fine Motor Skills
An effective and integrated programme, designed to improve and develop hand & finger strength, manipulation & dexterity, hand - eye coordination, visual perception, sequencing skills, movement & coordination.
