What we are

Cambridge House is run by special educational needs experts. The company is a family owned and run by Bruce and Nicky Williams. Nicky is a trained dyslexia and dyscalculia specialist who also continues to tutor at a number of schools in Kent.

We believe this gives us a special edge in selecting practical resources that work; many of which Nicky uses or has used in her work or have been recommended by colleagues.

In that vein, if you have any new or favourite resources that you think should be brought to the attention of a wider audience do tell us about them. We are always keen to spread the word. newideas@cambridgehouseeducation.com

We have also increasingly become a sourcing and consolidating partner for international schools. Please contact us for more information.

What’s popular

Here is a selection of particularly popular resources. Dare we call them essentials ...

- Inference Activities 2nd edition
- Proofreading & Editing Skills
- Reading Explorers
- Maths Learning Difficulties, Dyslexia and Dyscalculia – 2nd edition
We have struggled over recent years to include as much as we can in our printed catalogue and to keep it to an accessible and cost-effective format. We have given up this unequal struggle, fully embraced new technology and as is very apparent to us gone to where our customers are, the internet.

This mini-catalogue/leaflet is just a sprinkling of the many resources we supply. The rest of the best is on our website which we relaunched in September. We hope you find it easy to navigate and to find the resources you need.

We think it ticks all the boxes that makes it accessible to the neurodiverse

We are also pleased to make our own contribution, albeit small, by reducing our use of paper, printing inks, fuel and the other inputs of distributing thousands of catalogues.

What has not changed is our commitment to supplying top quality, practical resources that work.

There are many excellent resources out there but sadly there are also many that are not so excellent. With money ever tighter we continue to select the resources that we think will make a difference and help you in your everyday interactions and interventions with the young, and sometimes not so young learners with SEND.

We appreciate any and all feedback we receive so please do let us know about the good and the bad. We would love to hear from you – feedback@cambridgehouseeducation.com
